

GrünloClean 2SC

Sewer cleaning hose with special sliding layer

GrünloClean 2SC is flexible, abrasion-resistant, pressure- and oil-resistant and extra smooth due to a UHMWPE film coating. With an operating pressure of 250 bar, it is ideal for use as a sewer cleaning hose.

This highly abrasion-resistant hose meets the requirements of EN 857.

As a service we offer you various connection options!

Technical characteristics

Norm: EN 857

Temperature range: -40 °C to +100 °C

Standard Length: 120 m

Colour: Black

Construction

Cover: SBR, extremely smooth, wrapped, UHMPWE film coating

Reinforcement: Double, highly tear-resistant steel braiding

Lining: SBR, black, smooth

Inner-Ø mm	Inner-Ø Inch	Wall thickness mm	WP bar	BP bar	Bending radius mm	Article no.
